Develop shared understanding and empathy

Summarize the data you have gathered related to the people that are impacted by your work. It will help you generate ideas, prioritize features, or discuss decisions.

In the marketplace,

they see a growing

demand for accurate

weather classification

tools and the need for

advanced Al-based

They see others in

the field of machine

learning and

meteorology using

transfer learning

and deep learning

for image analysis.

000

They may say,

"Transfer learning with

models like Inception

V3 and VGG19 is

revolutionizing

weather classification,

benefiting various

sectors."

What do they SAY?

What have we heard them say?

We have heard them

emphasize the

classifying weather

phenomena and the

learning techniques,

especially in image

analysis.

What do they SEE?

solutions.

In their immediate

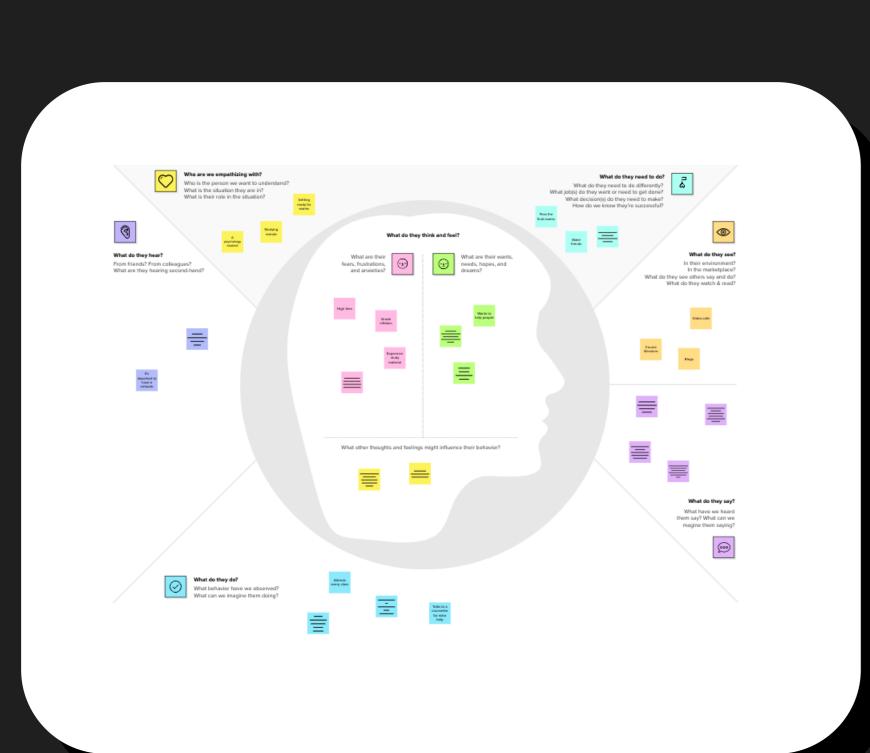

environment, they

observe the

impact of weather

on daily life and

agriculture.
